Please substitute the Abstract with the Abstract attached as an Appendix.

## **APPENDIX**

### **ABSTRACT OF THE DISCLOSURE**

Spray apparatus for cleaning *inter alia* toilet bowls comprises a spray head connected through a water hose to a pressurised source of water. The spray head includes a casing formed with an opening to receive one end of the water hose and an outlet nozzle form which water under pressure can leave the housing. A hand operated valve is provided for selectively enabling or preventing the flow of water through the outlet nozzle.
